

Light Tower Generator

LT9000A Lighting Tower Generator Catalog 2022-V4

Lighting Tower Generator LT9000A	Power	8kW/9kW	Engine	Brand	Mitsubishi, Japanese
	Frequency	60HZ		Type	S4L2
	RPM	1800		Power	9.7kW/13.4kW
	Type No.:	LT9000A		Displacement	1.758L
	Weight:	1380KG		Factors	0.8
	Size (KIT):	2500-1200-2500MM		Cylinders	4
	Fuel Capacity	88L, for 72hours Continuous Running		Bore*Stroke	78*92
	Lamp	4*1000W, Metal Halide Lamp	Alternator	Brand	MECC
	Max. Height	9 Meters		Type	1VS4C
	Rotation	359°		Feature	Full Copper, IP23, Brush-less, Self Excitation
	Max. Speed	60-80KM/Hour	Controller	Brand	Deepsea
	Colors	Yellow, Green, Blue, Customized		Type	DSE3110
	Lifting methods	Automatic, Hydraulic		Display	HQ LCD
	Features	Silent, Stable, Durable		Language	16 Main Languages Available

The data may be changed without notice, final is up to the s/c, or invoice.

About LETON POWER

Sichuan Leton Industry Co.,Ltd. (known as Leton power)started the business from year of 2001 with four staffs. Nowadays,LETON power as an internationalized company with more than 800 staffs, who integrated R&D, manufacturing, marketing on alternators, engines, generators, and electric power products, is committed to providing the customers with innovative and high-efficient power solutions. LETON power products have been well recognized in more than 90 countries and regions. The booming development of LETON power in the global market is attributed to its development strategy that sustainable development must be closely tied to the "low carbon" economic target. In the whole process from R&D to manufacturing, the concept of energy-saving and environmental protection is always in the deep mind of LETON power family.

As the excellent manufacturer of complete power system, LETON power has its unique advantage in manufacturing of alternators,engines, generator sets, interference-free power, switch cabinet and automatic transfer switch. All components are from the only one manufacturer and designed for cooperative and smooth operation, so high-efficient, cost-effective and seamless solutions can be provided for LETON power customers.

LETON power generator sets already passed the global ISO9001 systems certified, CE certified. We satisfy the world's users' access to more convenient, more efficient, more energy saving, more stable and lower emissions power appliance. We insist on the quality of enterprise as a fundamental survival, complete sets of quality control system has been set up. Through equipment performance testing, we ensure that products 100% factory qualified. At the same time, we also attaches great importance to the product after-sales service system in order to resolve worries of customers abroad. LETON power always believes innovation leads the future power!

INVERTER GENERATOR

LETAN POWER Leton power inverter generator series products www.letonpower.com

Diesel generator set is a common emergency power supply equipment, which ensures the power supply demand of special units. In order to better improve the service efficiency and service life of generator set, here is a brief introduction to the maintenance methods of radiator of diesel generator set?

Maintenance

LETAN POWER

LETON power provides various emergency power carts for communication engineering. With the needs of national construction and development, emergency power supply vehicles have become important transportation and operation equipment in economic construction...
